**NOW THERE'S AN ALTERNATIVE
IN SUSTAINABILITY STANDARDS**

OUR WORLD MUST TURN TO SUSTAINABILITY IN MANUFACTURING, AND THAT'S WHAT THE AFRDI 150 SUSTAINABILITY STANDARD FOR COMMERCIAL FURNISHING DELIVERS:

- consideration of chain of custody issues for raw materials
- responsible, ecologically-sound manufacturing practices
- recycling and re-use issues included at the design stage
- considered use of energy and waste disposal
- more efficient use of transport

All delivered in an accessible three-level package.

The **AFRDI 150** Sustainability Standard helps deliver a better product with the longest possible life.

Look for the **AFRDI Green Tick** in association with the **AFRDI Blue Tick** (for strength and durability).

It's all you need to know in commercial furniture.
