Certification is based on the above Standard and any additional testing and/or assessment conducted by Furntech-AFRDI during auditing processes. Certification is conditional upon display of a stability warning label and supply and fitment of a wall attachment device.

Full testing and evaluation was conducted on the four drawer unit and partial testing was conducted on the two and three drawer units. In the opinion of Furntech-AFRDI it is reasonable to infer from this testing that those units (as tabulated below) should perform satisfactorily in relation to the requirements of the standard.

The supplier having agreed to maintain the compliance of the product and to submit to retesting and auditing as appropriate, the Australasian Furnishing Research and Development Institute hereby certifies the product under the AFRDI Blue Tick Product Certification Program.
